Ladies' stroke handicap (Sunday)—Mrs. Farmer, Blaimore.

Men's stroke handicap (Monday)—L. L. Morgan (77 gross, 58 net).

Ladies' stroke handicap (Monday)—Gross, Mrs. Ward; net, Mrs. Morgan.

The prizes were presented at the close of play, President William Kerr, of Bellevue, officiating, assisted by the vice-president of the association, J. B. Wilson, of Blaimore, and Secretary Frank Smith, of Hillcrest.

A vote of thanks to the Blaimore club was moved by Dr. Alan Kennedy, of Macleod, and carried with three rousing cheers.

Alberta golfers did not do so well in the tournament as last year, but are hopeful that they will go to Cranbrook next year and redeem their honors they have lost.

## DISTRICT SCOUT NEWS

The Crows' Nest Pass district proposes to hold a "Flag Day" in the towns throughout The Pass, on June 30th, and July 1st, to augment the funds of the district. It is hoped that all loyal citizens who wish to promote good citizenship and real fellowship will give their support to this project by purchasing a "Flag" and the boys on these two days.

Plans are under way for the construction of the swimming pool at the Campsite on the McGillivray Creek, and it is hoped that this will be completed in time for the opening of the District camp, commencing July 17th.

## REDUCTION MADE

IN THE MARKING OF EXAMINATION PAPERS

The Edmonton papers carried an announcement last week of a reduction in examination fees for Grades X, XI, XII, of one dollar.

The previous decision of the department of education to have school inspectors do the most of the marking of exam papers this year, instead of high school teachers, as in the past, brought forth immediate requests from several districts for a reduction of fees.

Medicine Hat pointed out the apparent injustice of the department making a profit of over 100 per cent through the collection of fees of \$5, \$6 and \$7. The minister of education in announcing the reduction, stated that no real profit had been derived from this source. Also, that despite the reduction, around 80 per cent of those employed marking papers would be teachers.

Even this small reduction will be received with joy by parents who have found it difficult to provide all of the necessaries required for the completion of their children's education.—Ex.

## DETECTIVE INSPECTOR

JOE CARRUTHERS MURDERED

The third police officer to be murdered while in performance of duty in the history of Calgary happened to be Joe Carruthers, inspector and chief detective with the city police force, who was shot down by an unknown robber at an early hour on Tuesday morning.

Carruthers, with other officers, responded to a call, and in endeavoring to corner the criminal received a bullet in the body from a .32 calibre revolver.

The murderer is still at large.

Carruthers was one of the best and most popular police officers in Western Canada.

## MINE EXAMINATIONS

ARE HELD HERE

Examinations under the Mines Act for certificates of competency in mining were held here last week, with the following being examined: For first-class mining certificates, B. Caulfield, Fernie, and E. Rolfe, Hillcrest.

For second-class certificates, Marshall Hamilton, A. Womersley, Blaimore; J. Jones, P. Smith, Bob Pettigrew, G. Morgan, Hillcrest; Joe Hillary, Bellevue; E. Alexander, C. Mitchell, W. Rhodes, Pincher Creek, and R. Sutherland, Bellevue.

For mine surveyor, Iddis Evans, Blaimore.

W. G. Healey, district inspector of mines, was in charge of the examinations, assisted by Jack McLeod, of Coleman, representing the operators, and Evan Morgan, of Blaimore, representing the miners.

PASS SCOUTS TO CAMP IN JULY

Crows' Nest Pass district Boy Scouts will camp two miles north of Coleman on McGillivray Creek, the probable date being from July 15 to 20.

The site, which was first used last year by troops from Michel Crows' Nest, Coleman, Blaimore, Bellevue and Hillcrest, will be made into a permanent camp.

Permission has been given by the provincial highways officials for the erection of a dam to make a swimming pool, and a log shelter, sufficient to accommodate about 100 children, and a kitchen will be erected.

Dominion Day, July 1, will be observed by the Scouts as Flag day.

## QUICK TRAVELS FROM

ICELAND TO QUEBEC

Montreal, Que., June 13.—The banding of young birds, which is carried on as a joint effort by the governments of the United States and Canada under the provisions of the Migratory Birds Convention act is resulting in the compilation of valuable data.

Last fall a resident of Bradore Bay in northeastern Quebec, shot a drake pintail which bore a small aluminum band on one of its wings. This band was stamped with a Danish name and address which he sent to a member of the migratory bird staff of the department of the interior at Ottawa.

An investigation by that department proved that the bird had been banded as a duckling on June 30, 1930, in Aldal, northern Iceland.

In its investigations the government is being assisted by all major organizations interested in game protection, among the most active being the fish and game department of the Canadian National Railways, which asks all hunters and tourists finding banded birds to report a description of the band to the Department of the Interior, Ottawa.

Mr. and Mrs. W. E. G. Hall have as their guests for two weeks, Mrs. Hall's father and sister, J. W. Macintosh and Mrs. O. E. Stroumen, of New Glasgow, N. S.—Drumheller Mail.

## DOUBLE FEATURE AT ORPHEUM MONDAY

Tom Keene, as a Texas Ranger, is kept mighty busy in his latest action western, "Come On Danger," coming to the Orpheum next Monday. As a reckless trouble-seeker and rightful avenger, he wrecks a Mexican cantina when someone insults the Service, and the home of a wealthy earl when the owner is turned inside out in a fight with a scoundrel.

Mimicking Lionel Barrymore, his favorite actor, is Charles Morton, favorite pastime. Morton carries the love interest with Lili Damita in J.

## Seeking Market In Canada

Bermuda Agriculturists Investigating Result Of Recent Vegetable Shipments

Inauguration of a regular service of vessels between Bermuda and Quebec city is fore-advanced by W. R. Evans, assistant director of agriculture in Bermuda, who came to study the results of a recent experiment in the shipment of potatoes and celery on the S.S. Victoria.

The cargo of the Chomedy was the first consignment of Bermudan vegetable products ever unloaded at Quebec.

According to Mr. Evans, Bermuda's vegetable season dovetails that of Canada.

## Old Books Again Used

Bible and Prayer Book First Used In Australia In 1788

The first Bible and Prayer Book taken into Australia were used at the recent anniversary service in St. Philip's Church, Sydney. The books were carried by the Rev. Richard Johnson when he landed, 145 years ago. Mr. Johnson was the first chaplain of the settlement founded in Sydney Cove by the First Fleet bringing settlers to the new continent. Both books bear the inscription "Botany Bay, 1788," but as the sailing of the fleet was delayed they were first used in Australia on January 27, 1788. Ten years later they narrowly escaped destruction in a fire which burned down the first church.

## Horse Stealing Revived

Horse stealing is not a lost art, according to James Chartrand, who has requested authorities to trace twenty horses missing from his 4,000-acre ranch on the Saskatchewan-United States boundary. An intensive search of the huge range was made for 100 missing horses, but only 50 were found.

## Many Acres Under Glass

England Seen Valuable Market For  
Hothouse Fruits and Flowers

The fact that every tropical fruit and flower can be grown in British hothouses is beginning to be appreciated and acted upon. Towns of glass are springing up, and experts estimate that there is a market value of \$30,000,000 open to the enterprise. Tomatoes, cucumbers, grapes, mushrooms, early strawberries, and raspberries are the chief fruits cultivated at present, but there is no reason why others should not be added to the list. The largest glass-house area in Britain is in the Lea Valley where 1,500 acres are under glass. There are now more than forty-four miles of green-houses in the sheltered part of the South Downs near Worthing, and a new enterprise has been formed to exploit the Worthing hothouse grape industry. The aim is to put 100 acres under glass, employ 600 men and get an output of a quarter of a million pounds of grapes a year. Other areas where hothouses have been erected are the Holland division of Lincolnshire and the marshland district of Norfolk. The figure of \$30,000,000 is mentioned as the fresh capital recently put into this promising industry, which incidentally gives work to many men who are not gardeners.

## Largest Electric Sign

Carries Name Of Founder Of German  
Dye Trust

Leverkusen, German, claims that its new electric sign is the largest in the world. It has been put up between two chimneys of the German Dye Trust which are four hundred feet tall and stand nearly two hundred feet apart. In letters nearly forty feet deep a name has been arranged vertically and horizontally, the central letter serving for both. The whole is enclosed in a circle two hundred feet in diameter. Two thousand electric lamps are used. The name is that of the founder of the trust.

## Convalescent Homes

Plan Would Greatly Reduce Hospital  
Expenditures In Ontario

Establishment of convalescent homes throughout Ontario would reduce hospital expenditures and at the same time benefit patients, Hon. Dr. H. A. Bruce, Lieutenant-Governor of Ontario, told the Ontario Medical Association.

Adoption of the plan would reduce the present hospital population by 30 to 40 per cent, he said, and would postpone for many years the expenditure of large sums of public money on new institutions.

"Hospital care is imposing a heavy charge upon the people," said his honor. "The per diem cost of a patient in a hospital is due to a large extent to modern facilities such as X-ray, operating equipment, and the services of a trained staff. These are required for one seriously ill but when a patient has tended to be acutely ill or she can be cared for equally as well in a convalescent home in the country, preferably on a small farm. Patients would have the advantage of country air and could be given light employment."

## Recipes For This Week

(By Betty Barclay)

## FRUIT CARAMELS

- 1 cup figs.
- 1 cup seeded raisins.
- 1 tablespoon candied orange peel.
- 1 cup stoned dates.
- 1 cup walnut meats.
- 2 to 4 tablespoons orange juice.
- Steam fruit for 20 minutes. Cool and put through food chopper with walnuts. Moistened with orange juice until of right consistency to make into small-balls or squares.

## STRAWBERRY TAPIOCA

## FLAMINGO

- 1 quart fresh strawberries, hulled.
- 1 cup sugar.
- 1/2 cup quick-cooking tapioca.
- 1/2 teaspoon salt.
- 2 1/2 cups boiling water.
- 2 cups strawberry juice, drained from berries.
- 1/2 cup cream, whipped.
- Crush strawberries slightly, add sugar, and let stand 30 minutes or longer. Add quick-cooking tapioca and salt to water, and cook in double boiler 15 minutes, or until tapioca is clear, stirring frequently. Add strawberry juice to tapioca mixture. Chill. Pour 1/2 of this mixture into parfait glasses. Fold cream into remaining tapioca mixture and fill glasses. Chill. Just before serving, top with crushed strawberries. Serves 8.

## Close Mounted Police Posts

Reported That Three Posts In North  
To Be Abandoned

Three R.C.M.P. posts in the far north will be closed under an economy reorganization plan, according to Major-General J. H. MacBrien, commissioner of the force.

The posts to be closed are at Liard, Hay River, and Wrigley. It is planned to handle the Hay River post from Providence, while Simpson will provide patrols to the Liard district and Wrigley.

General MacBrien plans to go to Edmonton in August for a trip of inspection as far north as Alkavik.

## Keen Interest In Silver

Price Means Everything To British  
Columbia Mining Camps

Silver, subject of many conferences and plans for boosting its price, has taken by storm the mining camps of British Columbia. Silver is everything to the people in the northern districts and is the sole topic of their talks and thoughts.

Higher prices for the white metal would be the solution to all their problems. Just as the price of wheat is the main interests of farmers on the western prairies, so is the price of silver the hub around which these miners live their lives. They talk silver and dream silver.

Their hopes raised by the advocacy of bimetallics for its remotization, they read every word on the subject of silver and listen eagerly to lectures and discussions. If the price would rise 10 cents, they say, a dozen mines would reopen; if silver should advance to 40 or 50 cents an ounce the country again would be a hive of industry.

## Railway Registers Increase

Minister Of Railways Sees Signs Of  
Improved Conditions

It was only \$2,500—one grain of sand on the seashore—but it brought a wide grin of satisfaction to the face of Hon. R. J. Manion, Minister of Railways. That sum represented the gain in the revenues of the Canadian National Railways for the 10-day period ending May 31 over the preceding 10 days.

It was the second time since July, 1929, and the first since October, 1931, the revenues of the government road showed an increase and was constructed by Dr. Manion as another sign that old man depression finally was being tossed for a fall.

## SUNDAY SCHOOL LESSON

JUNE 18

## JESUS RISES FROM THE DEAD

Golden Text: "He is risen."—Mark 16:6.

Lesson: Mark 16:1-9.

Devotional Reading: Psalm 16.

## Explanations and Comments

He Is Risen, verses 1-8.—It was after sunset on Saturday when the Jewish Sabbath was over, that three women, Mary Magdalene, and Mary the mother of James, and Salome, bought spices for the anointing of the body of Jesus. His body had lain in the tomb three days, according to Jewish reckoning for part of a day was spoken of as a whole day. Nicodemus had brought a hundred pounds of myrrh and aloes at the time of the entombment, John 19:39, 40, but of this the women were evidently not aware.

It was very early on the first day of the week, that they came to the tomb. (With the exception of the Sabbath the Jews gave no names to the days of the week, but called Sunday the first day, Monday the second, and so on.) It was when the sun was risen, Mark adds, and yet it was "very early." It has been suggested that a "mist" had dropped out of Mark's words and that he wrote "when the sun was not risen." Luke says it was "early dawn," and John writes "while it was yet dark."

Looking up, suggestive of heavy hearts and downcast eyes on the way thither, they saw that the great stone was rolled back.

They entered the tomb and saw a young man clad in a white robe sitting there, and they were amazed. Luke says they were frightened, and bowed down their faces to the earth, Luke 24:4.

"The women came to the sepulchre and found it empty? Not at all! They saw a young man sitting." We are so accustomed to the accounts in the four Gospels, in which they do see angels, that we may never have noted Mark's expression. But how much simpler it makes the story! No angels were seen. Put yourself in their place. They steal out to the tomb in the half-darkness, casting aside their garments about to make sure no one is watching. On the way they hear a whispered consultation as to how they can get the stone—only to find it has already been moved. Very cautiously they venture up to the open doorway and peer in. Whereupon, not a wordy battle, but a human being, dressed in white, jumps to his feet, with a startled expression on his face, and the women do an inevitable thing: they scream and run, paying no attention to the exclamation. He calls after them? "The Holy Cross Magazine."

"Be not amazed," the young man cried. "Ye seek Jesus the Nazarene, who hath been crucified: He is risen: He is not here."

And with Him hope arose, and life and light.

He rose!

Men said, "Not Christ but Death died."

And joy and truth and all things virtuous.

Rose when He rose.

Drive In and Park

New Type Movie Theatre Under  
Construction At Camden, New

Jersey.

How would you like to drive your car right into the theatre, turn off the engine and just sit there and take in the latest talkie? Strange to relate that kind of a movie is under construction at Camden, N.J. It is to be known as the drive-in-theatre, and builders claim it is the first automobile theatre in the world. The plan calls for space enough for 400 cars. There will be seven rows of inclined places, which sponsors state, will insure uninterrupted vision for motorists regardless of those coming and going. There will be a 60-foot screen, with special sound equipment.

It's hard to imagine what it will sound and smell like between shows when each of the 400 cars tries to get out first; or how the noisy late-comer will be received.—St. Thomas Times-Journal.

Dwarf Had Giant's Courage

Attempted To Walk From Italy To  
North Pole Alone

Giant's courage was possessed by Anton Gittinginger, a dwarf of Milan, Italy, so he decided to walk to the North Pole alone. He went to Norway and got a Polar outfit and dogs, the same as Greenland. Eventually his supplies gave out and he killed and ate his dogs, only the last one escaping by running away. He was left stranded on the icefields starving to death. There he was found by the explorer Rasmussen, lying in the snow and too weak to walk. The explorer then adopted the tiny man and nursed him back to life. They kept him with them for the two years of their exploration. At present he is planning a walking trip to Africa, and may later set off for the Himalayas.

That its planes have flown 10,000 miles with only five accidents involving injury to passengers, has just been announced by a British aviation company.

Work of Daughters  
Of Empire

Distribution Of Milk To Under-Nourished Children One Of Many  
Efforts

If the Independent Order of the Daughters of the Empire did not do other work in the past year, its contribution to the well-being of the Dominion in supply of milk to underprivileged and under-nourished children would in itself constitute a worthy record.

"It would be impossible to estimate even the quantity or the sum to which this would run, the national convener of child welfare, Mrs. A. U. de Pencier, of Vancouver, said in an interview at Edmonton. "But it is safe to say that nearly every chapter in the Dominion has participated in this form of relief work," she added.

"In one instance in British Columbia, \$927 was spent by three chapters; one of these gave 1,900 quarts a month to school children. Of chapters heard from in the province of Quebec, \$2,254 was expended, on chapter spending \$500. In Nova Scotia, there was record of \$1,447 having been spent on milk.

"Clinics are supported in many centres of chapters, and expenses for vaccination and dental work borne where parents are unable to pay for these health services. Preventorium, sanatorium and solarium maintenance and summer camps are other noteworthy efforts to which the order has devoted itself in the past year," Mrs. de Pencier stated.

Thirty-five states are maintained in the preventorium in Toronto, and Saskatchewan chapters donated some \$1,000 to preventorium work and have supported innumerable clinics. Several chapters across the Dominion assisted the solarium on Vancouver Island, supplying layettes and other clothing and boots and shoes.

"Hot lunches and hospital care are other phases of child welfare endeavors which have held the attention of chapters across the Dominion during the past 12 months," Mrs. de Pencier concluded.

Mrs. J. H. Holmes, of Saskatoon, vice-president of the national executive of the Independent Order of Daughters of the Empire, and former provincial president of Saskatchewan, and the distinction of being the only member to receive a national membership this year.

Refutation of this life membership was made at a session of the annual chapter, meeting at Edmonton.

## The Lighter Side Of Life

A Little Humor Helps To Make Life  
Better and Brighter

It is not recorded who first said, "A little nonsense now and then is relished by the best of men." But who ever it was, he might with equal accuracy have observed that a great deal of nonsense is relished at any time by most men. In business or pleasure, a laugh is as hungrily sought as anything else that may be on the programme. The business of living is involved in so many hardships and worries that the most trivial nonsense helps to make life brighter and better. It has been said that the sense of humor is a saving grace; but so two people seem to have the same sense of humor. Perhaps the best is that which enables one to see enough of the funny side of the experiences of life; tragic as some of them are, to laugh his way through difficulties and to perceive the laughable side of the thing when fate drives him through the briar patches.—Moncton Transcript.

## Intentions Were Good

Jones was at a dinner party. He was about to speak because of his inability to say anything neat. All the evening he had been trying to think of something nice to say to his hostess. At last he thought he saw his chance.

"What a small appetite you have, Mr. Jones," said his charming hostess with a smile.

"To sit next to you," he replied gallantly, "would cause any man to lose his appetite."

## Had Spill System

When an inspector called recently at a school in Sofia, Bulgaria, he was impressed with the accuracy of the pupils. Every time the teacher asked a question every child raised his hand, and the answers always were right. The inspector congratulated the teacher. Upon his congratulations the teacher confessed she had devised a "system," and had taught all her pupils to raise their right hand if they knew the answers and their left hand when they did not. She called on only those with right hands raised.

"Didn't I tell you to go round and re-assure the passengers?"

"Ay, ay, Sir—and it looks like being a long job!"—The Humorous.

## DON'T BE ALARMED

Blairmore citizens need not fear, nor be alarmed, if they should meet a couple of bearded strangers on the street. They are perfectly harmless and will cause no trouble if not molested. These fellows are none other than two high school students of the male sex that have signed an agreement that reads like this: "Wherever it is expedient that provision should be made for regulating the specific growth between the nose and upper lip, the moustache; then it is hereby enacted and ordained that the undersigned parties shall abstain from shaving the said moustaches, which heretofore were not extant. And whereas it is agreed that on the 1st day of June, 1933, the undersigned shall cease to shave the moustache for the ensuing thirty days. Failure to comply with the agreement shall require the offender to donate the sum of \$1.00 to the Wood's Christian Home.

The agreement, which is signed by several students whose names we will withhold, was stolen secretly. No doubt the Wood's home will receive a donation of two dollars within the next few weeks.

## IS THIS OUR OWN STOKALUK?

Why is it that unnaturalized citizens have so much to say about how a community, a Province or a nation should be run? Whether a man comes from United States or Russia, he should keep his mouth shut as regards the running of the country, when he does not think enough of Canada to take out Canadian citizenship papers. Canada owes unaturalized citizens nothing, while, even people from other parts of the British Empire can be deported for misbehaving themselves.—Dunlop's Review.

We learn that Rev. H. L. Nobbs, former Anglican clergyman at Blairmore and Coleman, was married at St. Bride's church, Glasgow, Scotland, on May the 9th, to Margaret Louise Reynolds. Rev. and Mrs. Nobbs will reside at Campbellton, Argyl, Scotland, where Mr. Nobbs is rector of St. Kieran's church.

The marriage took place at Okotoks on May the 31st, of James Francis Cook to Gladys Irene Beatty, both of Pincher Creek. They will make their home in the Pincher Creek district, where Mr. Cook is engaged in farming.

## CORRESPONDENCE

Mr. R. Percival,  
Blairmore, Alberta.

Box 2321, June 12, 1933.

The Blairmore Enterprise

Dear Sir:—Referring to your correspondence report on the Blairmore Council Meeting, held on June the 11th with to correct certain statements which have appeared there in.

For your information I will say that Mayor Knight for personal reasons asked the Council to put a motion which amounted practically to his abjuration of the Public Works Department of which I am Chairman. This I construed as a slander upon my ability as a public servant; therefore I informed the Council that I would not tolerate such action but would resign in protest.

The Council seeing the justice of my stand ignored the Mayor's request with the result that I am still a member of the Blairmore Town Council.

I will admit that in leave the Council Chamber while the session was in progress I did wrong. But in a moment of excitement the same could happen to anybody.

For the past three and a half years as a member of the Town Council I have functioned efficiently well for the good of the majority of the people of Blairmore and as long as I remain in the Council, I will continue to do so.

In conclusion I wish to say that if Mayor Knight still maintains his stand I will be compelled to resign.

Thank you, Mr. Editor for the use of valuable space I am.

Yours very truly,

R. PERCIVAL

## A TIMELY HINT

Even in a mining area such as the Crows' Nest Pass a better price on primary products, such as those of the soil, has a direct result. It means greater purchasing power for all the people, a greater demand for manufactured goods, more freight business for the railroads and greater coal requirements. And, by the way, shippers of freight in the Crows' Nest Pass should remember that they owe their existence to the railroads, without whose business these towns could not exist. Think of it when you are solicited for shipment by motor transport, and remember that your vital interests are affected every time you turn business from the railroad.—Coleman Journal.

Visitors to the golf tourney here last week end included Mr. and Mrs. Bishop Wilson, Pincher Creek; Mr. and Mrs. Sherwood Herchner, Fernie, B.C.; Mr. and Mrs. Beale, Cranbrook, B.C.; Mrs. Forest and Mrs. Hogarth, Cranbrook, B.C.; Mr. and Mrs. Frank Smith, Hillier; Mr. Plunkett, Madame Dubuc, Pincher Creek; Mr. Penn, Lundbreck; Mr. Powers, Warman, B.C.; Mr. Allan Graham, Cranbrook, B.C.; Miss Eleanor Hughes, Mr. Frank Hughes, Fernie, B.C.; Mr. and Mrs. J. ## WHEN YOU ARE HARD UP

You're not hard up when your purse is flat  
And your trousers frayed like an old doornat;  
You're not hard up when your bills fall due  
And haven't a dollar to see you through;  
You're not hard up till you see the day  
That you haven't a cheerful word to say.  
You're not hard up when your coin is gone  
And you whistle a tune as you journey on;  
You walk the street while others ride  
And your pockets have naught but  
And your hands inside;  
That's not being broke; you may depend,  
For you're not hard up while you have a friend.

But you are hard up and in a sorry way  
If you haven't a cheerful word to say.  
If nothing on earth appeals to you  
And you can't see charm in the skies of blue;  
And you are hard up if you've reached the end  
And you can say in truth that you have no friend.  
In dollars and cents don't count your wealth,  
But sum it up in good friends and health.  
In the chance to give not material things  
But the gladness your smile and cheery word brings.  
If you haven't a soul to love or care,  
You are hard up—though a millionaire.—Ex.

Quite a number of parcels that had been advertised for the tax sale here, were redeemed before the sale date. Those remaining unsold or unredeemed after June the 28th, will go to the town, but the owners will have twelve months in which to redeem same by paying the taxes and costs. If not redeemed, the town takes title for the properties.

## MOTOR CAR DENSITY

## IN CANADA

Putting the capacity of the average automobile at five passengers, it will be seen at once from recent official figures that Canada has only enough motor cars to accommodate half the population at one time. Canada has one motor vehicle to every 9.4 persons, and ranks fourth among world countries in this respect, the United States leading with one motor vehicle to every 5.1 persons. The Province of Ontario leads all Canada, with 6.5 persons per motor vehicle, British Columbia coming second with 7.7 persons per vehicle.

The editor and Miss Dunlop were visitors to Calgary on Monday and Tuesday—Cetoka Review. There are things that would suffer from their names appearing in such suggestive form as above.

The Vegreville Observer carries this: "We note, with warm approval, that there is a chance that the Rt. Hon. E. B. Bennett, prime minister of Canada, will be elevated to the peerage of Great Britain on June the 3rd, the birthday of Our Sovereign Lord and King, His Majesty King George V. Our approval is, however, predicated on the condition that if Mr. Bennett becomes Lord this or that, it involves his permanent removal from public life in Canada. Elevate him to the peerage, or the gallows, it is all one to us, providing the method eliminates Mr. Bennett for keeps. We know of only one other man in all North America who, by his record, is better entitled to a peerage than is Mr. Bennett. That man is Mr. Gaston Means, of Washington, D.C. Anyone who has followed Mr. Gaston Means' career as a prolific promoter and a poor performer, will grasp our meaning immediately."

### TEN MODERN COMMANDMENTS

Published for the benefit of the Blaimore Council and Certain Local Citizens

The following are Ten Modern Commandments which every citizen should adopt. Read them carefully and see if you measure up as well as you do to the Mosiac version.

I. Thou shalt not go away from home to do thy trading, nor thy son, nor thy daughter.

II. Thou shalt patronize thy home mechanics, for yea--verily, doth the home worker spread over the tiding of the goodness and greatness, and many will patronize thee.

III. Thou shalt employ thy home mechanics that, they shall not be driven from their homes to find bread for their little ones.

IV. Thou shalt not ask for credit, as goods cost much and the merchant's brain is burdened with bile. His children clamor for daily bread, and his wife abideth at home for lack of garment as adorneth her sister. Blessed, yea, thrice blessed is the man who pays cash.

V. Thou shalt not ask for reduced price on thine "influence," for guilt is in your heart, and the merchant readeth it like an open book. He laugheth thee to scorn and shouteth to his clerks, ha ha!

VI. Thou shalt do whatever lieth in thy power to encourage and promote the welfare of thine own neighborhood and thine own people.

VII. Thou shalt not suffer voice or pride to overcome thee and if foreign merchants' entice thee, consent thou not, for thou mayest be deceived.

VIII. Thou shalt spend thy earnings at home that they may return from whence it came and give nourishment to such as may come after thee.

IX. Thou shalt not bear false witness against the town wherein thou dwellest, but speak well of it to all men.

X. Thou shalt keep these commandments and teach them to thy children even unto the third and fourth generations that they may be made to flourish and grow in plenty when thou art laid to rest with thy fathers.

H. J. Humphrey, newly appointed general manager Eastern Lines Canadian Pacific Railway, with headquarters in Montreal, succeeding J. J. Scully, who relinquished his post on account of ill health after many years service. Mr. Humphrey was formerly assistant to Mr. Grant Hall, Vice-President.

## "Good-Bye Uncle Jock"

Said Vera Fleck, (left) and Lyette Teppaz, as they shook hands with Captain R. G. Latta, and left the Canadian Pacific liner Empress of Britain at Father Point, Quebec, to make an aeroplane dash to Montreal on their way to Chicago where they are contestants in the selection of a "Queen" of the Century of Progress Exposition. No matter what the contest results Vera and Lyette will carry memories of a thrilling first voyage home with them. The Empress of Britain, one of the world's fastest liners, broke two records for them, and a combination of fast ship, fast plane and fast train gave the two pretty girls the distinction of making the fastest voyages from London and Paris to Chicago ever recorded. They travelled so fast all the way that Miss Teppaz, who lunched in Paris, Friday, May 18, found herself breakfasting less than six days later in Chicago, May 25. Miss Fleck's record was from breakfast to breakfast. Canadian Pacific officials arranged every detail of their entire journey which, with the exception of two hours and fifty minutes in the air, used the facilities of that organization.

### THE PASS SIXTEEN YEARS AGO

(The Blaimore Enterprise, 1917)

Jan. 19.--At the regular meeting of the local I.O.O.F. lodge this week, J. B. Harmer was installed as noble grand, and W. McVey as vice-grand. The officers were installed by Herbert Barlas, of Bellevue. On Monday night, George Pattinson was installed as N.G. of Bellevue lodge. Following the installation of officers at Bellevue, the Oddfellows' honor roll, containing thirty-eight names, was unveiled by Past Grand Bartlett.

The name of Labor Store Limited, at Bellevue, has been changed to Bellevue Mercantile Co., Ltd., with Fred Chappell as manager.

Private Frank Boseley returned to Bellevue from overseas this week.

Rev. John McDougall, D.D., pioneer missionary of western Canada, died at Edmonton on Monday, aged 75.

Mike Rosse, chairman of the peace and prosperity committee of the council, is strongly opposed to the levy of a business tax.

"Life" mentions the following reasons why churches were empty: sermons, choirs, hard pews, collections, Sunday papers, automobiles, golf and beds.

Mayor Beebe, of Blaimore, and Mayor Morrison, of Coleman, went to Edmonton last week to confer with the provincial authorities regarding the introduction of the poll tax system in The Pass. Cap. took with him a town cheque for fifty dollars, and upon his return on Monday handed \$19 back to the council.

The remains of Joseph Gibson, who died from asphyxiation in the Pochontas mine, were brought to Blaimore, and were laid to rest on Sunday afternoon, Dr. E. H. Gray officiating at the service.

A man down east, when liberated from his five wives and sent to jail, shouted: "It's heaven for me!"

Word reached Blaimore from the front the early part of the week, stating that Lieut. W. J. Fisher had lost a leg. It was later learned that the report was false.

Jan. 26.--A daughter was left at the Cowley home of Mr. and Mrs. C. J. Bundy on January the 21st.

The business tax by-law was passed at Monday night's meeting of the

council. Frank James Smith, of Hillcrest, has been appointed notary public.

February 2.--The first session of the local 1917 parliament came to order on Friday night last, with Dr. E. H. Gray as speaker. Members of the government present were: J. E. Gills, Charlottetown, premier and minister of justice; W. Shaw, Edmonton, minister of public works; J. C. Boudreau, Halifax, minister of trade and commerce; Dr. A. H. McDonald, Waterloo, minister of interior; Raoul Green, Montreal, secretary of state and minister of mines; Louis P. Robert, Perth, minister of railways and canals; W. J. Bartlett, St. John, minister of marine and fisheries; A.

## The People Must Pay.

Few, if any, subjects are engaging the attention of people in Canada, as in most countries, as closely as the subject of taxation. The rising burden of taxes is a matter of deep concern to all. Fortunately, it is receiving serious consideration, not only by those responsible for the administration of public affairs, but by individual citizens.

Taxation in our modern democracies is by no means a simple problem; it is cumulative in effect, and its control is extremely difficult. Every governing and administrative body set up imposes a measure of taxation upon all of us, and, in addition, there are many calls made upon people which, while voluntary in one sense, constitute, in the final analysis, a form of taxation.

First, we have Federal taxation, direct and indirect, and levied in a great variety of ways through such agencies as the tariff, excise duties and taxes, sales taxes, income taxes, stamp taxes of various kinds, license fees. Provincial Legislatures follow with a second income tax, land taxes, amusement taxes, license fees to be paid for this, that and the other without number. Then the municipalities place another tax on lands, on improvements thereon, some levy a third income tax, some an additional amusement tax, all of them have more license fees to charge. The school boards impose further tax to meet the costs of education.

Hospitals have to be provided for, to some extent this is done through taxation, Provincial and municipal, but often this form of taxation has to be supplemented by voluntary contributions, but which, in reality, are a tax on business and incomes. Churches have to be maintained, even though the law may not compel us to do so, and thus people are in effect again taxed if they are willing to be, and most of them are. Philanthropic and charitable organizations and services of all kinds are maintained in the same way.

The cumulative effect is to produce an almost impossible burden, until now we find articles appearing in magazines, financial journals, the daily and weekly newspapers recording the hundreds of millions of debt that have been created, and the scores of millions that must be annually raised in taxation, while organizations of all kinds are conducting investigations and studies with a view, to arriving at some means whereby the burden can be lessened, and any further increase of it prevented.

Prevention of any further increase is an easy matter if the people who are the sufferers determine there shall be no further increase. Individuals know they must keep within their incomes, or they are headed for trouble and disaster. Private business knows it must accommodate itself to its income, or it will end in bankruptcy. What individuals and business must realize is that what is true in their respective cases is likewise true in public business.

Many people, possibly a majority of them, who are fully aware that they must live within their incomes, have nevertheless acted in the belief that it was not necessary for the governing bodies created by them, and supported by them, to follow the same course. Rather, people have insisted that their governments, Federal, Provincial, Municipal, should provide this and that service, and as the people make and un-make governments, the latter have naturally done what their creators demanded they should do. But these same governments have no income except the power to tax people, and this they have proceeded to do.

What people must realize is that if they demand of their governments certain services they must be prepared to pay for those services. They cannot have them otherwise. And if they cannot afford to pay for them, then there is only one thing they can do, and must be prepared to do, and that is go without them. That is, in their collective capacity they must govern themselves by exactly the same rules as they are forced to recognize and obey as individuals, if they cannot pay they must be prepared to do without what they would like to have and would have if they could afford it.

It is being predicted that the worst of the depression of the last three or four years is over; that things are on the up-grade; that better times are slowly but surely developing; that, in a word, the world is beginning to turn that corner around which it has been said prosperity is lurking. Let us all hope so. But when we have reached and turned that corner, and we are once again tempted to demand something of our governments we would like to have, and think they ought to supply, it will be the part of wisdom to pause and consider whether, after all, we can afford to have it, because, no matter what it may be, it will have to be paid for, and paid for by us—the people—and paid through the medium of taxes in one form or another.

Many glowing promises are frequently made, and are still being made notwithstanding the bitter experience of the past few years, of what the State can, and ought, and will do for all the people if certain principles in administration are adopted. But if these wonderful things are done, the people will pay for them in taxes. And every dollar that people have to pay in taxes is just a dollar less left in their own pockets to spend in meeting their individual tastes and desires and needs. Either they are going to do certain things for themselves as they desire to do them, and pay for them themselves, or they are going to have the State do these things for them, as the State may determine they should be done, and then pay the State in taxes for the services so rendered.

In any event, and under all circumstances, the people will do the paying. They too, can do the ordering. They can order by their means, and get into trouble. They can order for themselves, according to their own needs and desires, and pay for what they order. Or they can order the State to do the ordering as the State may see fit to do, and then pay the bills incurred by the State. And the decision, whatever it may be, will be the decision of each and every man acting in his or her capacity as an individual free citizen.

The main point to remember is that there is, notwithstanding the mistaken use of the word, nothing free in this world. Everything has to be paid for, and it is the people who have to foot the bills. Therefore, the day and the manner of settlement should always be kept in mind before the liability, whatever it may be, is incurred.

### Colonization Plans

#### Calgary Families To Be Settled On Land in the North

Under a plan proposed to Calgary city council by Rev. O. P. Brown, president of the Land Association of Calgary, 30 families on unemployed relief in Calgary would be settled on the land at St. Paul de Melis, north of Edmonton.

The 30 families have made application for the transfer and efforts to bring them under the Dominion Government back-to-the-land scheme are being made, so the colonization scheme can go through.

Sixty per cent. of the public school buildings now used in the United States are one-room structures.

### Not Open To Challenge

#### United States Fleet Has Perfect Right In Pacific

There is no good reason why Japan should become excited because the United States fleet is being ordered to remain in the Pacific till July, 1934; still less for supposing that the presence of the fleet in these waters is a "velled threat." Inasmuch as the United States owns Alaska, the Philippines, and Honolulu, and as her continental territory with a Pacific seaboard extends over 18 degrees of latitude, from Juan de Fuca Strait to San Diego, the movement of her fleet in these waters is open to no kind of challenge.—*Australasian*.

### Scientific World Is Reserving Judgment

#### As To Whether Living Bacteria Is Found In Meteorites

No successful refutation has yet been put forward of the claim of Professor Charles B. Lipman of the University of California that he has found living bacteria in meteorites, according to Professor F. E. Lloyd, of McGill University, president of the Royal Society of Canada.

While making it clear that he was not committing himself to support of Professor Lipman's theory, Professor Lloyd, who has been in communication with the California savant, declares that all who know Professor Lipman recognize in him a careful and exact observer who is not given to rushing into half-baked theories. Professor Lloyd declared that Lipman's account seems to indicate that he had taken every precaution he could think of to guard against the accidental transplanting of bacteria into his samples.

The McGill professor also informed The Toronto Star Weekly that an earlier theory of Professor Lipman announcing discovery of live bacteria in coal seams is supported by a German scientist, who, working independently, came to the same conclusions as Professor Lipman.

Like Professor Lloyd the scientific world is still withholding judgment on both cases, although Professor Lipman's announcement as to meteorites is criticized by some who assert that the bacteria must have got into the meteorites after they had reached the earth.

### Harnessing Sun Power

#### May Supercede Water Power As A Source Of Energy

Opening ceremonies of the fifth Pacific Science Congress at Vancouver were featured by the radio address of Lord Rutherford, famous Empire scientist, speaking from Cambridge, England.

Harnessing the sun's power may supercede water power as a source of energy in the future if large scale development of a power plant at the Smithsonian Institute, Washington, D.C., proves practical. Dr. C. G. Abbot, secretary of the institute, indicated.

Dr. W. S. Adams, director of the Mount Wilson Observatory, California, outlined his theory that sun spots occur in regular cycles of 12 years. At present, the sun is comparatively exposed to the earth, he said. Dr. Adams discounted any connection between weather on the earth and sun spots.

### Britain Wants Empire Products

#### Plan To Have Empire Ham and Bacon Plainly Marked

A standing committee established by the British Minister of Agriculture recommended that a marking order be applied to all imported bacon and ham. This means if the committee's recommendation is adopted all foreign ham and bacon will bear the mark "foreign" and all such products from the Empire will bear the mark "Empire" with the name of the country of origin in addition.

Canadian ham and bacon thus would be marked Canada and Empire "in block lettering not less than three-quarters of an inch high."

"We are satisfied," the committee reported, "that in absence of adequate marking there are obvious opportunities for substitution of imported bacon and ham and of foreign bacon and ham, and that this fact in itself constitutes a strong reason why the public should be given protection and assistance which a marking order alone could give, and the honest retailer given protection against revival."

"It was suggested that as result of propaganda during the past year or two, there is now quite definitely an increasing desire on the part of the public to purchase home or Empire produce as against foreign produce and that, in order to meet this desire in regard to bacon and ham, a marking order is necessary."

More than 90 per cent. of British imports of bacon and approximately 80 per cent. of ham imports were of foreign origin in 1932. Of the former, Denmark supplied 67 per cent. and of the latter the United States supplied 58 per cent. Empire supplies have been almost negligible in the case of bacon and such supplies as reached the British market came mainly from Canada and the Irish Free State, whose proportions were 1.6 and 1.8 per cent., respectively. In the case of ham Canada supplied 17.8 and the Free State 1.9 per cent.

Five portraits of His Majesty the King were presented to Inspector Sandys Wunch, of the Royal Canadian Mounted Police, by Miss M. F. Mackenzie, regent of the Municipal Chapter of Montreal, I.O.D.E. These portraits are intended for five detachments of the Eastern Arctic sub-division of the R.C.M.P.

### Daring Burglar Still

#### Is Puzzling Detectives

"Gimlet" Jimmy Reported To Have Made £100,000 In Clever Robberies

"Gimlet" Jimmy, the most daring—and elusive—burglar in England, whom detectives have been trying to capture for 11 years, carried out two robberies involving £1,300 in cash, early on a recent morning with lightning swiftness.

The problem facing the police in their hunt for Jimmy is that they have no notion of his appearance.

Nor has he ever left behind him a single clue which, in the event of his capture, would definitely establish his identity with his previous crimes.

Only once has a glimpse been caught of him. That was seven years ago when, in carrying out the greatest coup of his career—the raiding of a Deansgate, Manchester, bank—the night watchman saw Jimmy for a fleeting instant as he ran past a door in making his escape. But Jimmy, who nearly always confines his activities to the north of England, has one invariable method of approach.

For weeks he watches and learns the habits of his intended victim, usually a wealthy shopkeeper.

Then comes the night when Jimmy begins work.

First a visit to his victim's house for the keys of the shop and any valuable in the home safe.

Afterwards, armed with the keys, there is the raid on the shop.

On the latest occasion, Jimmy entered the home of W. Smith, of Ashton-on-Mersey, and, without waking the owner, took a bunch of keys from the bedside, from a safe in the house, from which he took £300.

Half an hour later Jimmy had taken another £1,000 from the safe of Mr. Smith's shop in Gorton.

Jimmy, whose name of "Gimlet" comes from his peculiar method of entering a house through a window, is estimated to have secured more than £100,000 by his burglaries.

### A Long Session

#### Last Session Of Parliament Extended Over 232 Days

The session of Parliament just closed extended over 232 days including the adjournment from November 25, 1932, to January 30, 1933. Only two sessions since Confederation in 1867 have been longer, the longest being the third session of the 11th Parliament which was from November 17, 1910, to July 29, 1911, or 255 days. The next longest was the seventh session of the 12th Parliament, which sat from January 18, 1914, and prorogued on 246 days. The third session of the fifth Parliament sat from January 29, 1870, to July 20, 1885, or 173 days. The shortest session was the fourth of the 12th Parliament which met on August 18, 1914, and prorogued on the 22nd of the same month. Those five days, however, were among the most momentous in Canada's history for at that brief time the Dominion decided on the policy to be adopted in connection with the Great War.

### British Built Aircraft

#### Have Been Granted An Official Distinguishing Mark

British-built aircraft have been granted an official distinguishing mark—a lion rampant in gold within three rings of red, white and blue. Within the white ring are inscribed the words, "British Certificate of Airworthiness." The mark has been registered under the Trade Marks Act.

The air ministry's announcement of the new mark, which will at once distinguish British-built flying machines, no matter what nation's registration markings they bear, states that the mark is authorized to apply to any aircraft, whether lighter or heavier than air. No fee is required for the authorization.

The first aircraft mark authorized was affixed at the London air station, Croydon, to "Astraea," one of the Imperial Airways fleet.

### Not Affected By Depression

#### New Zealand Has Steadily Increased Volume Of Exports

The effects of the depression upon New Zealand have been to some extent modified by the success of efforts to counter-balance falling prices by increasing production. While other countries have been afflicted by contraction of their export trade, in volume as well as in value, New Zealand has steadily increased the volume of her exports. In 1928 exports were 12 per cent. greater than in 1925; the official estimates for 1931 show an increase of 20 per cent. in five years, and the volume must have been again substantially greater in 1932, for, in spite of a much lower range of prices, the total value was larger than in 1931.—*Auckland News*.

## ATTACK MADE BY JAPAN ON NAVAL ACCORD

Geneva, Switzerland.—Japan has thrown the disarmament conference into confusion by assailing the London naval treaty as a provoker of international apprehensions and refusing to renounce bombardment from the air until aircraft carriers should be abolished.

In this uncertain atmosphere the formal discussions of arms limitation and reduction were adjourned until July 3.

The attack upon the naval accord, reached in London in 1930 by Great Britain, United States and Japan, drew sharp protests from the British and American delegates and from Arthur Henderson, president of the Geneva parley and British Foreign Secretary when the agreement was concluded.

The Tokyo delegate, Ambassador Naotake Sato, was asked to reconsider his stand against prohibition of aerial bombing as long as other great powers possess warships which provide landing and launching decks for aircraft.

"The London treaty," Mr. Sato told the conference, which was surprised at his intervention in this manner, "should have brought appraisement to all the signatories."

"On the contrary, it has created an atmosphere of uncertainty and apprehension."

"From one side and another, inflammatory speeches which were not calculated to appease the spirit of the interested peoples, have followed the conclusion of this treaty. Therefore, the feeling of security has not been strengthened."

Japan, Mr. Sato said, agrees to the French thesis that all armaments are interdependent, and will, therefore, maintain her position unless means are found for affording complete security and overcoming her apprehensions.

## Fewer Unemployed

Decline in Registered Idle Is Reported in England

London, Eng.—Ministry of Labor figures reveal 114,765 fewer unemployed registered on May 22 than the preceding month. The decline in numbers of registered unemployed from the same date a year ago, was 158,477. In four months the number has been reduced by 325,000.

The improvement in May extended to almost every industry. It was most marked in building, public works, contracting, brick and tile manufacture, the iron, steel, and engineering industries, metal goods manufacturing, shipbuilding and ship repairing, textiles and clothing, boots and shoes, pottery, the distributive industries and dock and harbor services.

## Crude Oil Rates

Regina, Sask.—Saskatchewan's Independent Oil Refiners and the provincial government, may send a freight representative to St. Louis to fight the proposed increase in freight on crude oil entering Saskatchewan from Oklahoma and Texas. A delegation from various points in the province, waited on the cabinet, urging that such action be taken. An application of the Saskatchewan Freight Association is slated for hearing before the southwest freight bureau in St. Louis on June 20.

## Oxford Group Sails

## Ontario Swept By Storm

Two Persons Killed and Damage Cannot Be Estimated

Toronto, Ont.—Two persons were killed and scores injured as violent electrical storms accompanied at some points by severe hail, swept Ontario. Damage was placed at hundreds of thousands of dollars, but positive estimates were unavailable. Communication by telegraph with numerous western Ontario points was disrupted for hours.

Fireman Robert Calhoun, of Toronto, was killed when he and four companions plunged from a broken aerial ladder as they fought a blaze started by lightning in the dome of Our Lady of Lourdes Roman Catholic Church. Condition of two survivors was described as serious. Lukas Mijkowski, Bohemian immigrant, was killed by lightning at Wallaceburg.

Scores of barns and other small buildings were demolished throughout western Ontario.

Hamilton reported streets flooded, wires brought down by falling trees and numerous buildings in the disorganized city. Highways were blocked throughout the Niagara peninsula as trees crashed across them. Electrical services were disrupted from Niagara Falls to Toronto. Damage to orchards and garden stock on the Niagara peninsula and through western Ontario was reported extremely heavy.

Damage estimated at more than \$100,000 was caused by a sudden hail storm that struck the suburban districts of Ottawa, particularly at Cyrville, where some 150 market gardens were the greatest sufferers. Greenhouses and hot-beds were destroyed and over hundreds of acres, the young plants flattened.

## Upturn in Business

Sir Thomas White Sees Every Sign Of Improvement

Toronto, Ont.—"I am happy to say from wide and reliable sources of information that within the past few weeks there has been marked improvement. There is a much more hopeful sentiment prevailing and a new light of hope in the faces of men," said Sir Thomas White, noted financier and former minister of finance, addressing the final meeting of the Canadian Manufacturers' Association convention here.

"The situation in the United States, with whose prosperity our own is always closely connected, and in Canada, where there are higher prices, increasing employment and better business generally. The wheels of our great manufacturing plants are beginning to turn with accelerated speed."

Coupled with his words of optimism, however, was a solemn warning. "I trust," he said, "the recent sudden upturn in prices and in business generally on this continent will not adversely affect the success of the world conference. The danger is that the conclusion may be reached, now that better conditions are to be looked for that there is not the same need for international co-operation."

## Want Women Speaker

Winnipeg, Man.—Hector Charlesworth, head of the Canadian radio commission, will be asked to include a women's institute speaker on any national radio programmes stressing distinctly Canadian ideas of community development. It was decided at the biennial convention of the Federated Women's Institutes of Canada here.

## Canadian Poet Honored

Cobalt, Ont.—In a simple ceremony of quiet dignity, the memory of Canada's famous habitation poet was honored at Kerr Lake when the Earl of Beasborough, Governor-General of Canada and patron of the arts, unveiled the bronze plaque which recalls to the mind of the passer-by that here Dr. William Henry Drummond "Mined—Wrote—Died."

## Awarded Scholarships

Montreal, Que.—Norman Leslie Wilson, formerly of University of Saskatchewan, and Vladimir J. Okulich, formerly of the University of British Columbia, have been awarded the Adams scholarships in geological sciences. It has been announced at McGill University. Both students will receive \$300.

## Hitler Society In Montreal

Montreal.—The Swastika, symbol of Hitlerism, was hoisted in Montreal when members of "the foreign friends of the Hitler movement, incorporated" society gathered at a temporary headquarters. The society claims a total membership of 298, and petitioned the Quebec government for letters patent.

## Empire Trade

Large Increases Shown In Imports To United Kingdom Of Canadian Products

London, Eng.—Striking evidence of the tendency of the people of the United Kingdom to demand products of the overseas empire is afforded in 1932 figures the empire marketing board reveals.

An increase from 6,000,000 pounds to nearly 11,000,000 pounds in imports of tobacco from Canada last year is only one of 24 new "records" in quantities of empire foods and tobacco imported by the United Kingdom from empire countries.

Other "records" are the increases in imports of wheat from Canada and Australia, and wheat flour from Australia. The wheat record from Canada of nearly 47,000,000 hundredweights (of 112 pounds) has never been exceeded by any other country except the United States in the war years of 1916 and 1917.

## WHEAT EXPORT QUOTAS MIGHT SOLVE PROBLEM

Saskatoon, Sask.—Agreement on export quotas of wheat between the wheat-exporting countries of the world is the first step to be taken if the world cannot use the volume produced stated L. C. Brouillette, president of the Canadian wheat pool, interviewed in Saskatoon.

Canada's crop was practically needed, Mr. Brouillette pointed out, and any agreement for acreage reduction would be ineffective for 12 months. The first step was therefore an agreement on export quotas in order that exporting nations would not deliver an amount in excess of the world's import requirements. This was an obligation that would rest on the federal government as far as Canada was concerned.

Then, should increased surpluses continue, it would become the responsibility of the prairie governments to formulate a plan, which would probably require legislation to bring production in line with the export quota plus domestic requirements.

"Finally it would be up to the producer to be responsible for carrying his surplus above his quota. This would be more effective than to deal solely with acreage reduction."

Mr. Brouillette added that there were of course a number of questions that would be dealt with at the London conference that might have the effect of opening broader markets.

Barriers that reduced the requirements of wheat by exporting countries might be reduced or removed.

It would be desirable, therefore, to have some body representing the exporting countries to maintain contact.

Mr. Brouillette wished to point out that the point of view of the pools differed from that of companies engaged only in the handling of grain. They were concerned with that only, they would place volume of business as the chief consideration. The interests of the farmers might differ from those of the grain handlers.

Commenting on the point of view expressed by some speakers that time alone could heal the difficulties of the farmers, Mr. Brouillette suggested that this was evidenced by the opinion of the leaders of the nations of the world.

## FAMOUS FLYING COUPLE ATTEND AIR DISPLAY

Almost on the eve of their flight across the Atlantic to New York in a last big bid for laurels, Mr. and Mrs. James A. Mollison are shown interested in a display at the annual civil air display at Brooklands, England. Captain Mollison and his wife, former Amy Johnson, attempted to take off on their Atlantic trip, but their aeroplane crashed when the under-carriage collapsed. Repairs will delay their departure.

## DELEGATE TO CONFERENCE

## Empire Marketing Board

Scope Of Work Is To Be Considerably Narrowed

Ottawa, Ont.—Reorganization of economic and scientific research units within the empire with the cost borne pro-rata by the member dominions, is recommended in the report of the imperial committee on economic co-operation and co-operation, made public here.

The empire marketing board, set up by the United Kingdom government in 1926, in lieu of empire preferences which that government would not grant at that time, will have its scope considerably narrowed, the conditions prompting its establishment having disappeared with the granting of reciprocal preferences at the imperial conference last summer. The board will continue to operate until the end of September next, and will then disappear as such.

## Take Drastic Measures

Endeavor To Make League Policy Effective In Manchukuo

Geneva.—Drastic measures to make effective the League of Nations policy of refusing recognition to the new state of Manchukuo, established in Manchuria with the assistance of the Japanese, were set forth in a report adopted by the league advisory committee on the Far-Eastern question.

The report sets forth that Manchukuo may be excluded from international relations, such as those dealing with postal questions, aerial questions, chemistry, weights and measures, sanitation, opium, and the Red Cross.

## Restoration Fund Growing

Toronto, Ontario.—The restoration fund of the Church of England in Canada has reached a total of \$295,468 in cash for all Canada. Rev. Canon S. Gould, director of the fund, reported to the Anglican synod the Toronto diocese. In addition, he said, there were four dioceses which had collected a great deal, but were not making returns until all was complete.

## Potatoes For Taxes

Calgary, Alta.—A Calgary taxpayer has paid his \$90 tax bill with potatoes. Plenty of seed potatoes on hand but no money led the taxpayer to make inquiries at the city hall when he heard the city was sponsoring a self-help plan for jobs. The deal was completed.

## Favors State-Owned Armament Factories

Private Manufacture Should Be Abolished Is Canada's Stand

Geneva, Switzerland.—Canada is convinced the manufacture of arms should eventually be restricted to state-owned establishments, the disarmament conference has been advised.

This stand was announced by Dr. W. A. Riddell, Canadian representative, in answering a question put to all governments as to whether the private manufacture of arms should be abolished.

Great Britain, Germany and Japan opposed the abolition of private armament factories and announced themselves in favor of control.

Dr. Riddell asserted that Canada believes eventual state ownership is necessary in order to remove one of the dangerous factors in international relations, manufacture of arms and the trade in arms.

He declared that Canada regards the internationalization of armaments, the internationalization of the manufacture of arms as wholly impractical.

## Rules To Follow

Sir Eric Drummond Tells Of Lessons Learned At Geneva

Geneva, Switzerland.—Here is the doctrine that Sir Eric Drummond, of Great Britain learned from 13 years as head of the League of Nations secretariat:

"First, never make a threat; second, tell the truth; third, place all your cards on the table."

Sir Eric, who is retiring as secretary-general, explained his views at a farewell luncheon given by the international press.

"And this," he said "applies to individuals as well as to nations."

## MUSSOLINI PACT IS SIGNED BY FOUR POWERS

Rome, Italy.—The Mussolini four-power pact, the aim of which is to assure European peace and open the way for world economic recovery, was signed by the Italian premier and the ambassadors of Great Britain, France and Germany.

In an address to the senate announcing the adherence of the four great European states to the latest draft of the agreement, Premier Benito Mussolini hailed the accord as a 10-year guarantee of peace and security in Europe.

The Duce's announcement was cheered enthusiastically by the senate and by the diplomatic representatives of the other three participating governments who occupied seats in the gallery.

Asserting that negotiations for the pact had met greatest difficulty over the article dealing with disarmament, Signor Mussolini declared the document as finally approved assures disarmament of the four powers in case of partial or complete failure of the Geneva arms conference.

Alluding to fears of smaller states lest the new agreement institute a great-power directorate which would impose its will upon others, Premier Mussolini asserted that parties to it have no intention of forcing their decisions upon nations which are non-parties.

"The pact is intended to protect the interests of all rather than of single states, and is designed to open the way for world reconstruction. Collaboration is intended for all states, great or small," Signor Mussolini declared.

The agreement, which in its original form was submitted by Premier Mussolini on March 18 to Prime Minister MacDonald of Great Britain and his foreign secretary, Sir John Simon, on their arrival at Rome, was signed immediately after the address to the senate.

The Duce was smiling broadly in triumph as he drove from the senate to Palazzo Venezia, where he was joined by Sir Ronald Graham, British ambassador, Henri de Juvenel, French ambassador, and Ulrich von Hassel, ambassador of Germany.

Dressed in formal afternoon dress, the quartette gathered around the Duce's desk in a far corner of the huge office room to affix their signature to the treaty.

Each of the signatories received a handsome reprinted copy of the pact, bound in handwork gold and leather covers.

The agreement now awaits ratification by the parliamentary bodies of the four countries.

## GERMANY TO DECLARE TRUCE ON PAYMENTS

Berlin, Germany.—Germany has declared a moratorium on credits granted to it which before July 1, 1931, thus admitting her inability to pay in foreign currencies either the interest or the amortization charges on some 17,300,000,000 marks (currently \$4,824,000,000) of foreign indebtedness.

The moratorium will operate for the debts owed to foreign treasuries. Existing standstill agreements with private creditors abroad are not affected.

Announcement of the truce on foreign payments was made by Dr. Heinrich Brüning, chancellor here, who at the same time solemnly warned the world against taking retaliatory measures.

In a drastic move to revive the country's finances, the government decreed a suspension of all foreign currency payments on debts incurred prior to July 1, 1931, the time of the acute crisis in European finance. The suspension will go into effect July 1.

Included in the moratorium are service charges on the Dawes and Young loans, millions of which have been deposited in other countries and represent liens on certain internal excise taxes.

The United States treasury is hit hard by the suspension. The obligations due to the American military occupation were to run until 1936, but the mixed claims account was to extend until 1931. The total of the two payments due this year is 66,000,000 marks.

The standstill agreement which amounts roughly to 3,700,000,000 marks, is unaffected at present, but a meeting of its participants at London, England, June 13, when the Bank of International Settlements also will take part, is expected to be the occasion for a review of the situation. The Germans are expecting to obtain relief from some of their obligations at this meeting.

Generally, all long term bonds floated by the government privately will go unpaid so far as the transferring of foreign currencies is concerned. German debtors will pay the regular equivalent to the conversion office which will be supervised by the Reichsbank until improved conditions permit conversion into foreign currencies.

Dr. Schacht, in an effort to avert reports that the government would use the money temporarily frozen in Germany to solve unemployment, said money collected by the conversion office will not be placed at the disposal of the government for internal uses.

"The money remains at the disposal of foreign creditors until we can resume payments," he said.

## Communists Issue Manifesto

Irish Party Calls For Mass Struggle Against British Imperialism

Dublin, Irish Free State.—The Communist Party of Ireland, launched at a week-end conference here, issued a manifesto to working classmen of the Free State, Ireland, which said the "hour of liberation is near" and called for a mass struggle against "British imperialism."

The party sent a message to the Irish Republican army urging its members to become Communists.

The manifesto alleged President Eamon de Valera's government was conducting its "struggle" against the United Kingdom along lines of "economic compromise, capitulation and betrayal."

## Would Refuse Recognition

Geneva, Switzerland.—Drastic measures to make effective the League of Nations policy of refusing recognition to the new state of Manchukuo, established in Manchuria with the assistance of the Japanese, were set forth in a report adopted by the league advisory committee on the Far-Eastern question.

## Better Outlook

Windsor, Ont.—Premier J. E. Brown, of Alberta, appeared here for a few minutes and expressed "sincere optimism" over the business outlook in the west. Business in Western Canada was greatly improved, he said, and business men were most hopeful for the future.

## Questions Legality

Calgary, Alberta.—Right of the Federal Government to assess income tax on royalties received under the sale of all lands in Turner Valley will be taken to the Privy Council, it was announced by H. S. Patterson, K.C.

Coleman has planned on staging a sports programme on July 1st, but the big attraction will be Blairmore on that day. Already the local sports committee have received numerous calls for copies of the programme and entry forms.

Last week end we drew attention of the Secretary-manager of the Blairmore Arena to the fact that youths were entering the building through a west window. Whether or not any pilfering or damage has been done, is not known, but some effort should be made to put a stop to the practice.

The tax sale on Wednesday afternoon was attended by eight persons, apart from Secretary Larbaletier, Auditor Battum and Councillor Olsen. The sale list contained 113 parcels. Only two bids were received, covering five parcels. Adjournment of the sale was made to Wednesday, June the 28th.

The people of Bellevue accorded the "Twelve Old Maids" and their team from Blairmore a splendid reception on Tuesday night at the United church. As a result of the entertainment, around \$35 was realized towards-Bellevue church funds. The following old maids were on the stage: Mesdames Jack Patterson, W. A. Vaughn, S. G. Bannan, H. A. Moore, C. Fraser, E. Neville, McDougall, M. McKay, D. McPherson, D. A. Howe, J. Warner, J. A. McDonald, E. A. Harper, A. E. Larke, J. O. Roberts, Miss Audrey Vaughn and Miss Eva Erikson. The Upton trio rendered selections, while vocal solos were offered by Mrs. Cranston, Miss Lena Fraser and Mr. Albert Christie. Following the concert, refreshments were served.

FOR SALE—Male Boston Bull dogs. Hartley Upham, Blairmore.

Mrs. J. L. Parker, of Lee Lake, was a visitor to Blairmore on Tuesday.

Mr. and Mrs. C. J. Bundy, of Cowley, were visitors to Blairmore on Saturday last.

Mr. and Mrs. M. A. Murphy, of Cowley, were week end visitors here, guests of their daughter, Mrs. Peel.

FOR RENT—Seven-room furnished house, fully modern, \$30 per month. Apply 2856 Parkway Drive, Gorge, Victoria, B.C.

The heat of the past three days has caused the rivers to rise considerably and it now looks as though there'll be very little fishing done this week end.

Ten tons of white lead and 400 gallons of boiled linseed oil, arrived this week at The Britannia Paint Works, Bellevue, to take care of their summer work.

Asked what line they proposed to follow on completion of schooling in Blairmore, there wasn't a boy to state that he intended to become a soapbox meal-ticket orator.

A gang of men are at work on a new road through the Gap. It is expected the work will occupy several months, and that during this time there will be little chance of cars getting by.

The Castle River Club intend holding their annual field day and sports, stampede, etc., on the community field, South Fork bridge, on Wednesday, July the 19th. The club intends to surpass last year's success by providing extra attractions.

Mr. and Mrs. J. R. Gresham passed through Blairmore by bus on Monday, enroute to the customs station south of Flathead. They left Okotoks by car, but experienced trouble with the engine and were obliged to leave the car at Macleod.

DR. A. E. SHORE, of Drs. Gunn, Hackney &amp; Shore, Calgary, will be at the office of Dr. Stewart, Blairmore, on Friday, June 16th, after 2:30 p.m. Any one wishing to consult him with regard to Eye, Ear, Nose or Throat conditions, or to be fitted with glasses, please make appointments with Dr. Stewart.

A C-truck 6-422 license plate, picked up, may be had by the owner calling at Red Trail Motors, Blairmore.

**IN MEMORIAM**

In loving memory of darling Elaine Ann Vejrava, who went to sleep on June the 12th, 1932, aged two years, two months and nine days.

"Never shall you be forgotten, Never shall your memory fade. Sweet thoughts will always linger Around the grave where you are laid."

And when the shadows of night are falling, And one is alone, dear Elaine, If you could just come home.

Lovingly remembered by Mamma and Daddy.
